Petit Pattern Mosaics

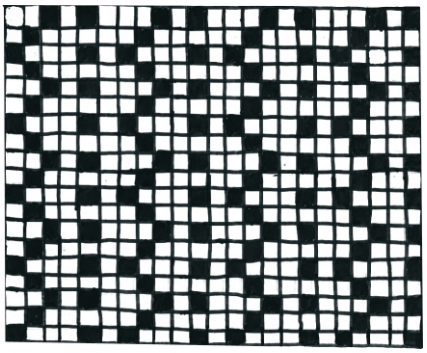
Mosaics are a great open-ended craft for expressing creativity with extra dimension. These bright-colored patterned mosaics can be applied to almost any surface and are easy to use.

Ideas:

- Create a patterned picture frame! Cut your own frame or choose from the variety of frames Roylco offers. Try our **22041 Economy Fun Frames** or **22500 Peel & Stick Collage Frames**.

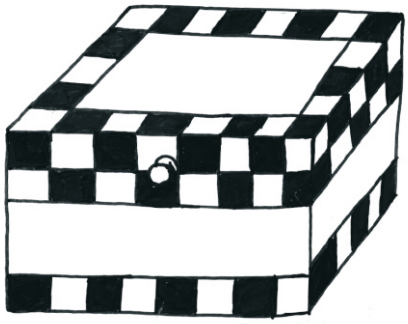
- Fancy up a flower vase. Using a permanent marker, draw out a design on a flower vase and apply mosaics using a glue that is appropriate for the surface on which you are working.

- Make a fabulous mosaic placemat. Cut a 20 x 26" poster in half and draw out a pattern. Apply mosaics with a glue stick and laminate.



- Add some color to your favorite notebook or journal! Using a pencil or marker, draw a base design on the cover and apply mosaics with a strong glue.

- Dress up a jewelry box. Tile mosaics around the outside of a jewelry box using alternating colors and patterns.



- Make a mosaic collage. Experiment with color, shape and pattern to create a unique collage.
