

No. 6090

Straws and Connectors

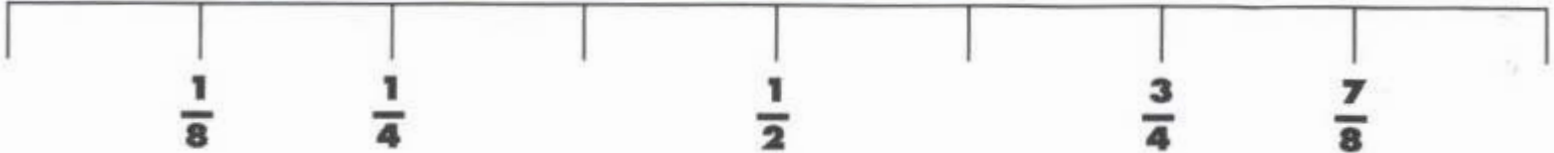

WARNING:
CHOKING HAZARD—Small Parts

Not for children under 3 years

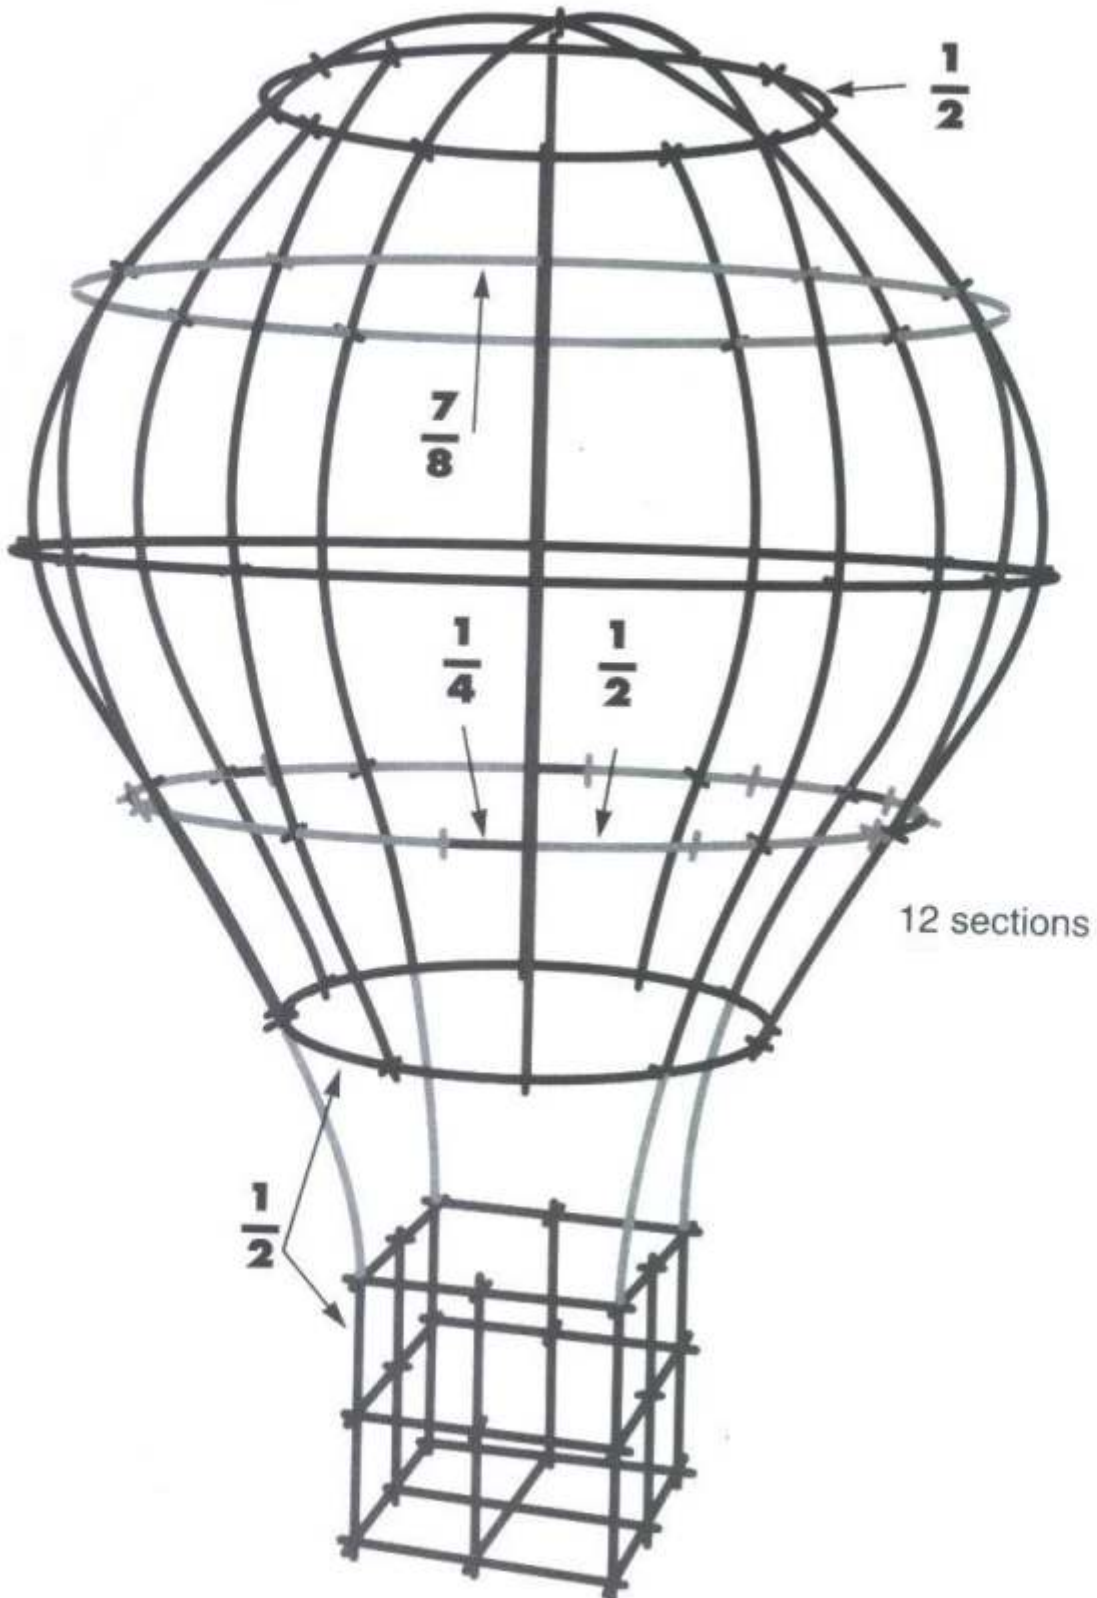

Build gigantic structures with durable straws and colorful connectors. Straws and connectors can be used to build structures such as monuments, airplanes, forts, boats and anything else you can imagine.

The straws are flexible, allowing you to make structures with bends and curves. Straws can also be easily cut to make more versatile structures.

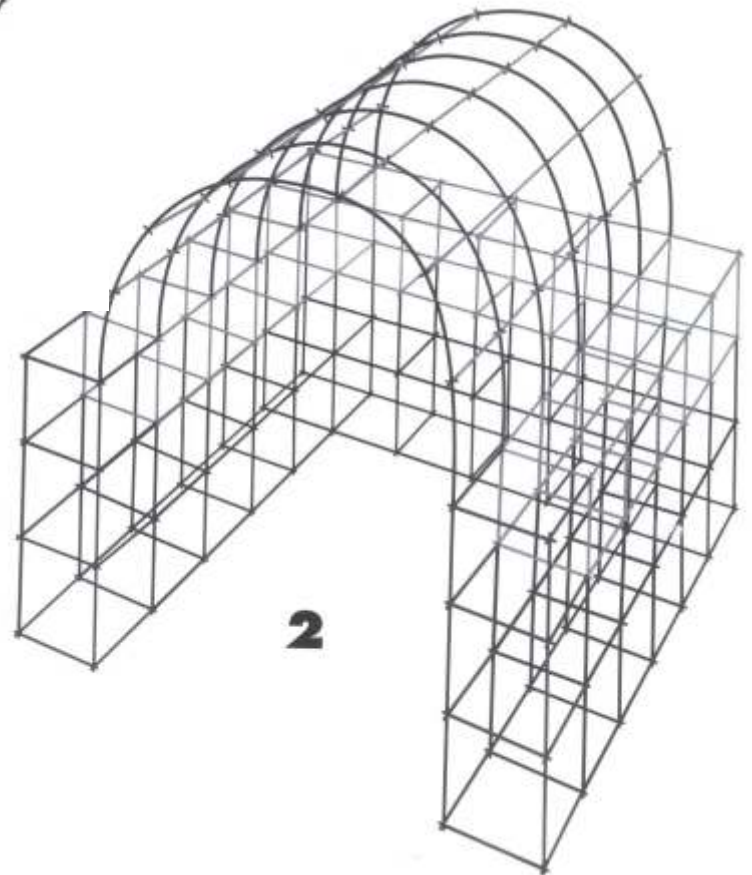

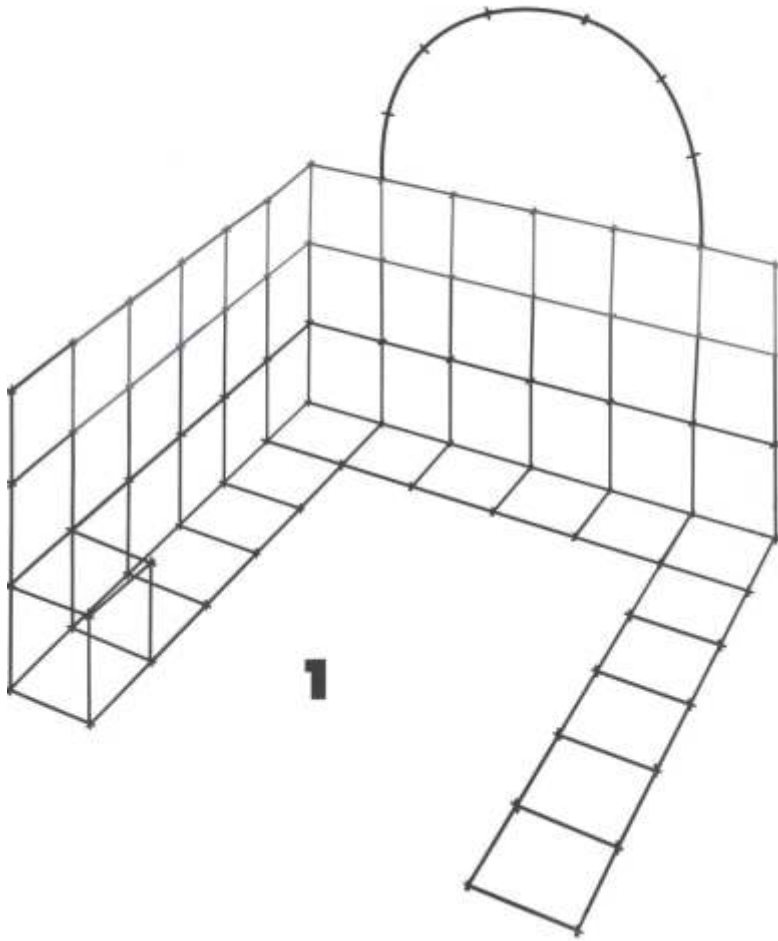

Made in Canada

HOT AIR BALLOON

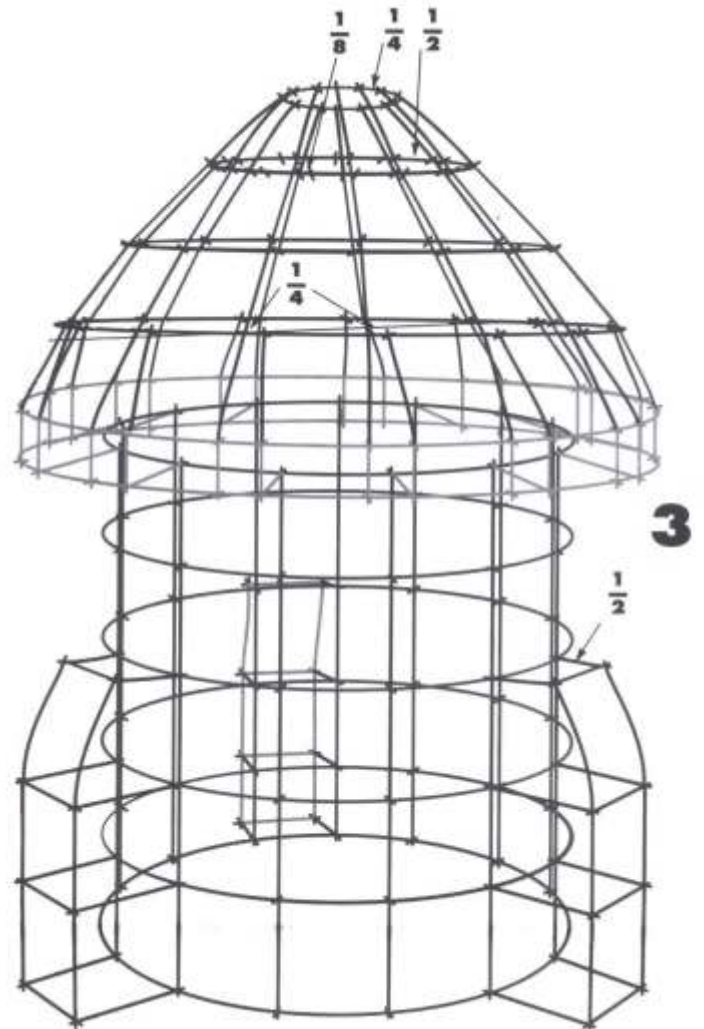

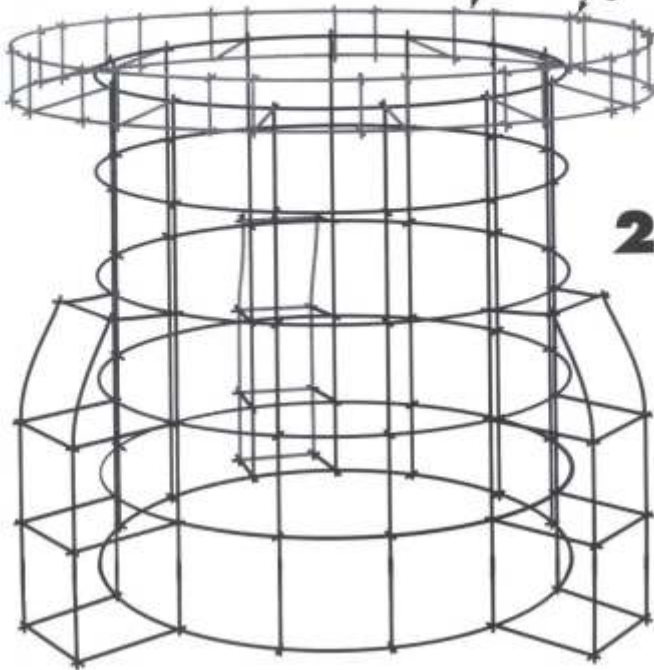

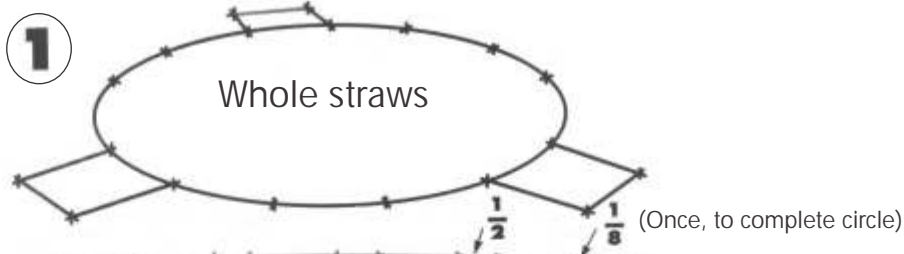

HOUSE

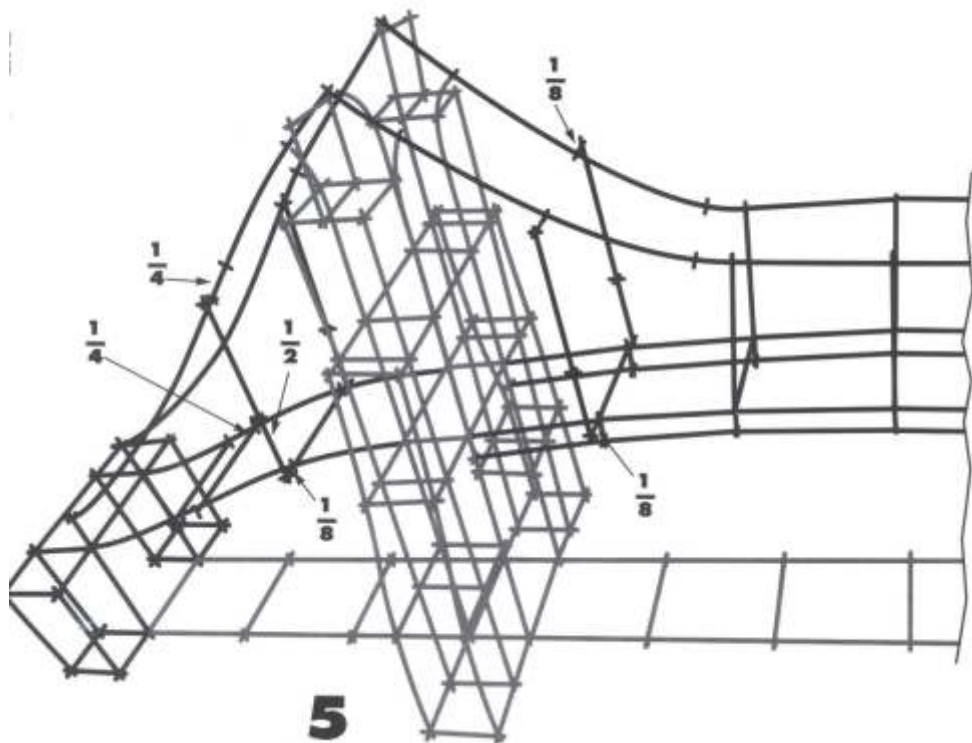

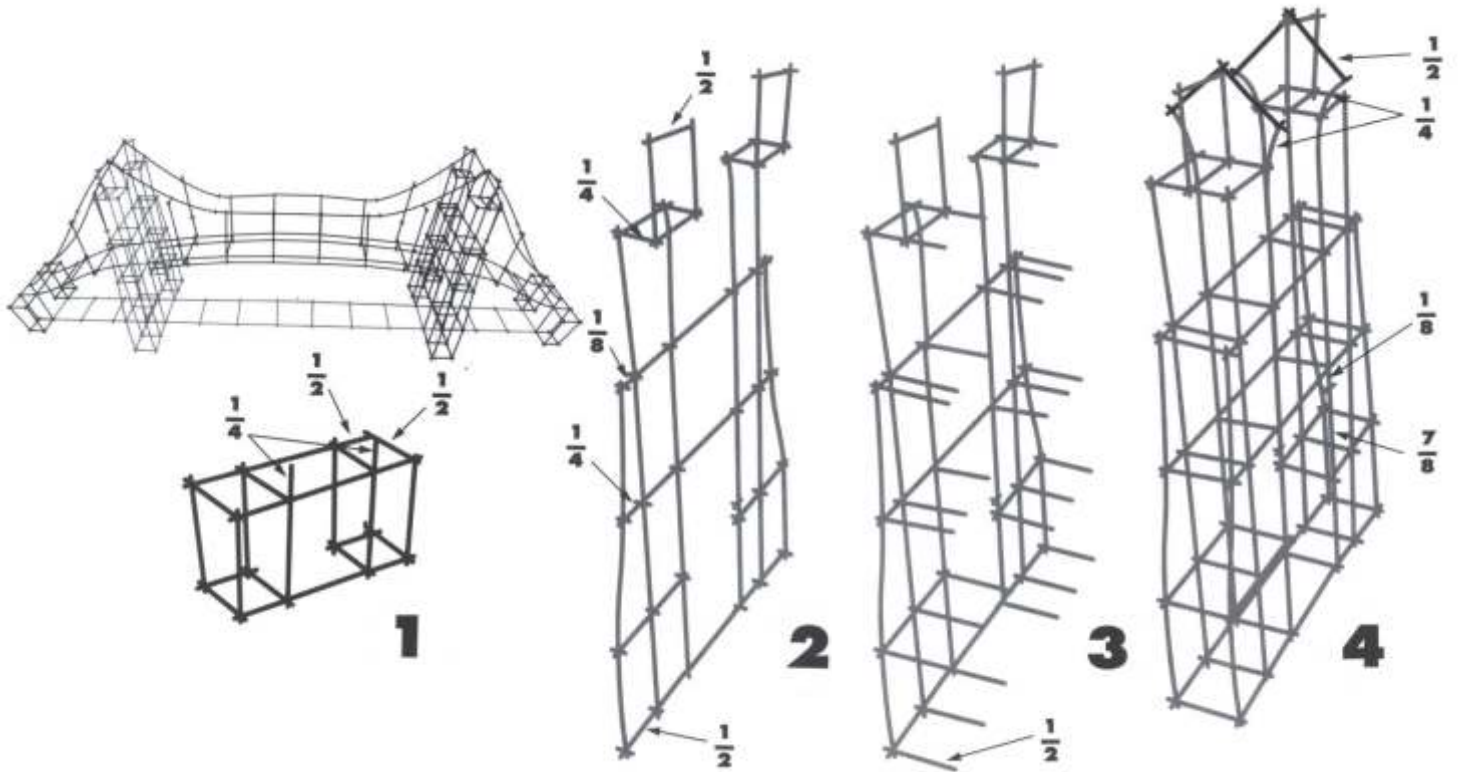

No cutting necessary.
Put a bedsheet over
your house and move
in!
