Super Hero Masks

Suit up and save the world with Super Hero Masks! Decorate the sturdy cardstock masks with markers, crayons, colored pencils, watercolor paint, or collage materials. Let your children explore their creative side by describing and designing their very own superhero. Children love superheroes, so creating their own will be a popular classroom project!

Here are some great ideas for your masks:

- Invite students to a classroom costume party! Encourage the children to choose their design and decorate it with a variety of materials. Wear the masks at an end-of-the-year celebration.
- Use them for a Halloween activity! They are a great addition for a handmade costume.
- Get creative and put on a play! After decorating the masks, ask the children to make up a script about their heroes and act it out.
- Use the masks as a creative writing exercise. Help the children improve their written and verbal communication skills by asking them to stay in their superhero character while telling their story.

Writing and acting out stories helps meet two National Language Arts Standards:

1. Students adjust their use of spoken, written, and visual language (e.g., conventions, style, vocabulary) to communicate effectively with a variety of audiences and for different purposes.
2. Students employ a wide range of strategies as they write and use different writing process elements appropriately to communicate with different audiences for a variety of purposes.
