Elementary Origami Animals

For more information, ideas, inspiration and to view a video, please visit our website and search by item number.

Add a creative element to literacy with these adorable origami story-time pals! Choose one of the 8 different animals to create and pair with a favorite book. The animals range in difficulty so kids from kindergartens to third grade can all participate. This is a great activity for reading buddies! The 72 double-sided sheets feature six different designs. Each sheet is 5¾ x 5¾" (14.6 x 14.6 cm) so your animal pals are desk-sized. For video instructions for each animal, please visit our website and search by item number: 15219.

The adorable puppy and the elephant are the easiest projects to make so little hands can practice and succeed! Pair the puppy with any number of picture books. The elephant is a perfect companion to any of the Babar books!

The fish and fox are the perfect first grade origami animal pals. They are rewarding to fold up because they are slightly more challenging. Your fish will love swimming through the ocean with [The Rainbow Fish](#). Your fox can help more advanced readers through early chapter books like [Fantastic Mr. Fox](#)!

Second grade readers will love to create a perky penguin to celebrate [Mr. Popper's Penguins](#) or [And Tango Makes Three](#). Fold up a graceful swan and explore folk tales like [The Ugly Duckling](#)!

Third graders can read classics like [Charlotte's Web](#) and fold up a pig! Want to scale things down? Fold up a little mousemate for adventures with [Stuart Little](#) or the gang at [Redwall Abbey](#)!
