

This pattern free face shield is a reusable and washable face shield intended specifically for use by children. It is important to clean the face shield after each use with soap and water and a disinfectant. Follow the instructions for the disinfectant you are using for proper cleaning techniques. Never share masks before they have been cleaned.

Assembly Instructions:

Step 1

Insert the strap, from back to front, into the slots on both sides of the face shield. Center the shield over the "Shield Tab Slots" as pictured above.

Step 2

Insert the tabs on the side of the face shield into the "Shield Tab Slots" on the strap as pictured above. Choose the slots that fit the child's face best.

For best fit, choose the same slot on the left and right sides as shown in example.

Step 3

A: Bring the ends of the strap together by curving them away from the face shield to form a band. Insert the "Strap Lock" into the desired "Strap Lock Slot" as pictured above.

B: To close the headband, insert the "Strap Closure" tab into the desired "Strap Closure Slot" as pictured above.

C: The head strap should rest comfortably over the child's ears and the shield should curve away from the child's face.
