

ROYLCO 

**The 2024
Early Childhood
Flipper**

About our Collection:

At Roylco, we are passionate about fostering early childhood education by crafting high-quality educational supplies specifically designed for early childhood classrooms. Our commitment to the growth and development of young minds is evident in every product we create. From colorful and engaging learning materials to interactive and hands-on teaching aids, we strive to empower educators with the tools they need to create dynamic and inspiring learning environments.

This year:

- We have been updating photography to facilitate distributor's web-first approaches
- We are continuing to craft quality-made products in the USA & Canada
- We are removing single use plastics from USA-made products & packaging

Research has shown that hands-on learning activities not only enhance academic achievement but also improve cognitive development and problem-solving skills. When children engage multiple senses, such as touch and sight, it strengthens their understanding of new concepts.

R59252 DNA Builder

Recommended Age: 6+

Experiential learning is a powerful tool that can lead to increased retention of information by up to 90%, compared to traditional lecture-based methods. This is because the act of doing and reflecting on the experience creates stronger neural connections in the brain, making the information more meaningful and memorable.

Pre-school Collection

Join the excitement as young children embark on a journey of discovery with Roylco's educational art kits! Each of these products are popular with inquisitive toddlers, making learning about colors, shapes, and textures an adventure they can't resist.

R17104 Big Art for Tiny Tots

R20305 Felt Fun: Learn My Shapes & Colors

R17101 2+ Toddler Art Kit

NEW

Plus the new First Word Picture Stickers. Designed to engage young learners as they add to their vocabulary, these have been built for toddler hands to peel and stick.
