

# Build the future

Let's go on a journey of imagination and innovation together with the Felt Architect builders! We had so much fun creating these builders, and we can't wait to see how you use them. Designed for open-ended play, the blend of engineering shapes and whimsy colors offer a playground to let your imagination roam free. Dive into a world where every twist and turn unlocks new opportunities for learning and growth. Want some inspiration? Follow us on social media pages: @Roylco.

This felt is made from recycled plastics. Thank you for supporting green.
