## Picture Frame Puzzle Pieces

Creating charming picture ensembles is fun and easy with these simple little picture frames. The following are a few straightforward ideas to get you started:

**Decorate frames with-** paint, crayons, markers, stickers, buttons, patterned papers, macaroni, glitter and many other collage materials.

### Make "Knowing Your Classmates" introduction frames:

Have each student bring in a recent picture. Write interesting facts about each student such as favorite color, food and book. When done, they can pass them around to learn about each other.

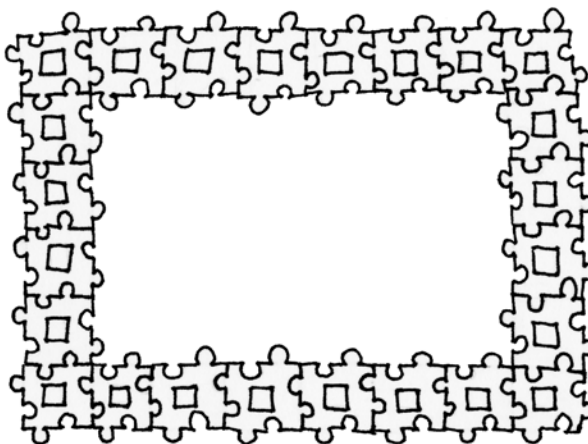

### Teacher/Parent Night - great class activity:

Post the collection of frames, pieced together, on the bulleting board.

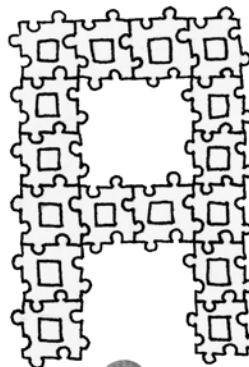

### Make a "Untied Classroom" picture ensemble:

Each student will place their picture inside one of the puzzle pieces. Give students markers or crayons to color their frame. When they are all done, link each puzzle piece together in the shape of a larger frame. Measure the space inside the larger frame and enlarge a classroom picture to place inside the frame. Mount the new frame to cardboard or poster board and hang it in your classroom.

### Make "Letter of the Week" frames:

Link your puzzle pieces together to form the letter of the week!
